

## Joint Statement

EXOR, one of Europe's largest listed investment companies, and News Corporation, the global media group, confirm that they are in the early stages of exploring the possibility of creating a consortium with a view to formulating a long-term plan for the development of Formula One in the interests of the participants and the fans.

Over the coming weeks and months, EXOR and News Corporation will approach potential minority partners and key stakeholders in the sport. There can be no certainty that this will lead to an approach to Formula One's current owners.

Turin/London, May 3, 2011
